## Opportunistic Value Fund

# $C \wedge L \wedge MOS^{\circ}$

#### **OVERVIEW**

The fund invests in the equities of small, midsize and large U.S. companies that we believe are undervalued according to certain financial measurements of their intrinsic values.

#### **KEY FEATURES**

- » Bottom-up stock picking and benchmark agnostic approach with a focus on good businesses with solid cash flow trading at value prices
- » Trading focus where positions are frequently monitored, investment assumptions are often questioned, and losing investments are quickly sold to protect capital
- » Options strategies to potentially generate income and lower risk

#### **PORTFOLIO FIT**

The fund is a core value equity option that may balance a growth allocation and complement other value strategies. Our flexibility in analyzing all companies regardless of sector helps us avoid the cyclicality inherent in a deep value strategy or a momentum growth strategy over full market cycles.

#### **INVESTMENT TEAM**

Jeff Miller SVP, Co-Portfolio Manager

Ariel Fromer VP, Co-Portfolio Manager

Tammy Miller VP, Co-Portfolio Manager

John P. Calamos, Sr. Global Co-Chief Investment Officer

Gary D. Black Global Co-Chief Investment Officer

#### **FUND TICKER SYMBOLS**

A Shares C Shares I Shares CVAAX CVACX CVAIX

Effective March 1, 2014, the Calamos Value Fund changed its name to the Calamos Opportunistic Value Fund. The principal investment strategies of the fund did not change. For further information see the fund prospectus.

There can be no assurance the fund will achieve its investment objective.

NOT FDIC INSURED | MAY LOSE VALUE NO BANK GUARANTEE

#### **Beyond Traditional Value Investing**

Not all value funds are alike. Calamos Opportunistic Value Fund offers distinct characteristics and a dynamic approach that distinguishes it from its peer group.

#### UNDERVALUED, NOT CHEAP

Seek to buy strong operating businesses with transient reasons for being undervalued

#### **HEALTHY VS. DISTRESSED**

Focus on complex or misunderstood companies with stronger balance sheet characteristics than traditional value funds

#### **OPPORTUNISTIC APPROACH**

Dynamic trading strategy that includes the use of options strategies to manage risk and seek to enhance returns

#### **NEW VALUE TEAM SINCE 2012 BRINGS A DISTINCTIVE INVESTMENT PHILOSOPHY**

The chart below shows how a hypothetical \$10,000 investment in the fund performed since the fund's inception and most recently since the Calamos Value Team assumed management in July 2012.

Performance is for the Fund's Class A shares at net asset value and does not include the Fund's maximum front-end sales charge of 4.75%—had it been included, the Fund's return would have been lower. Results are before taxes on fund distributions and assume reinvestment of dividends and capital gains. Source: State Street Corporation and Lipper, Inc.

AVERAGE ANNUAL RETURNS	1-YEAR	3-YEAR	5-YEAR	10-YEAR	SINCE I SHARE INCEPTION	SINCE A SHARE INCEPTION

Calendar year returns measure net investment income and capital gain or loss from portfolio investments for each period specified. Average annual total return measures net investment income and capital gain or loss from portfolio investments as an annualized average. All performance shown assumes assumes reinvestment of dividends and capital gains distributions. In calculating net investment income, all applicable fees and expenses are deducted from returns. The Fund also offers Class B and C Shares, the performance of which may vary.

Class I shares are offered primarily for direct investment by investors through certain tax-exempt retirement plans (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans, defined benefit plans and non qualified deferred compensation plans) and by institutional clients, provided such plans or clients have assets of at least \$1 million. Class I shares may also be offered to certain other entities or programs, including, but not limited to, investment companies, under certain circumstances.

Portfolios are managed according to their respective strategies which may differ significantly in terms of security holdings, industry weightings, and asset allocation from those of the benchmark(s). Portfolio performance, characteristics and volatility may differ from the benchmark(s) shown.

#### NOTES (ALPHABETICAL)

Annualized Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio. Beta is a historic measure of a fund's relative volatility, which is one of the measures of risk; a beta of 0.5 reflects 1/2 the market's volatility as represented by the Fund's primary benchmark, while a beta of 2.0 reflects twice the volatility, ROIC (return on invested capital) 2.0 reflects twice the volatility. ROIC (return on invested capital) measures how effectively a company uses the money invested in its operations, calculated as a company's net income minus any dividends divided by the company's total capital. Morningstar Large Value category consists of large-value portfolios invested primarily in big U.S. companies that are less expensive or growing more slowly than other large-cap stocks. Stocks in the top 70% of the capitalization of the U.S. equity market are defined as large cap. Value is defined based on low valuations (low price ratios and high dividend yields) and slow growth (low growth rates for earnings, sales, book value, and cash flow). PEG ratio is a stock's price/earnings ratio divided by estimated earnings growth rate in the next year; a lower PEG indicates that less is being paid for each unit of earnings growth. Russell 1000 Value Index measures the performance of those companies in the Russell 1000 Index with lower price-to-book ratios and lower forecasted growth values. forecasted growth values.

Unmanaged index returns assume reinvestment of any and all distributions and, unlike fund returns, do not reflect fees, expenses or sales charges. Investors cannot invest directly in

<sup>\*</sup> The Fund's investment advisor has contractually agreed to reimburse Fund expenses through March 31, 2015 to the extent necessary so that Total Annual Fund Operating Expenses (excluding taxes, interest, short interest, short dividend expenses, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses, if any) of Class A, Class B, Class C and Class I are limited to 1.15%, 1.90%, 1.90% and 0.90% of average net assets, respectively.

economic instability in foreign countries, there can be special risks associated with investing in foreign securities, including fluctuations in currency exchange rates, increased price volatility and difficulty obtaining information. In addition, emerging markets may present additional risk due to potential for greater economic and political instability in less developed countries. Options Risk is the Fund's ability to close out its position as a purchaser or seller of an over-the-counter or exchange-listed put or call option is dependent, in part, upon the liquidity of the option market. There are significant differences between the securities and options markets that drugle result in an imperfect securities and options markets that could result in an imperfect correlation among these markets, causing a given transaction not to achieve its objectives. The Fund's ability to utilize options successfully will depend on the ability of the Fund's investment adviser to predict pertinent market movements, which cannot be assured. More detailed information regarding these risks can be found in the Fund's prospectus.

Before investing carefully consider the fund's invest-ment objectives, risks, charges and expenses. Please see the prospectus and summary prospectus contain-ing this and other information or call 1-800-582-6959. Read it carefully before investing.
