

**CALAMOS GLOBAL FUNDS PLC**

**Simplified Prospectus**

**28 June 2012**

This Simplified Prospectus contains key information about Calamos Global Funds plc (the “Company”) which is an umbrella fund with segregated liability between sub-funds established as an investment company with variable capital incorporated with limited liability in Ireland on 9 August 2007. The Company is regulated by the Central Bank of Ireland (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and was authorised on 26 November 2007. The Company currently has five sub-funds (each a “Fund” and collectively the “Funds”) which are described in further detail below.

<b>Fund</b>	<b>Date approved by the Central Bank</b>
<b>Calamos U.S. Growth Fund</b>	<b>26 November 2007</b>
<b>Calamos Global Convertible Opportunities Fund</b>	<b>26 November 2007</b>
<b>Calamos Global Equity Fund</b>	<b>26 November 2007</b>
<b>Calamos Emerging Markets Fund</b>	<b>28 January 2011</b>
<b>Calamos Global High Income Fund</b>	<b>28 June 2012</b>

*Please note the Calamos U.S. Convertible Opportunities Fund (approved by the Central Bank on 26 November 2007) has been closed and an application has been made to the Central Bank for withdrawal of its approval.*

Potential investors are advised to read the Prospectus dated 28 June 2012, as such may be amended from time to time, before making an investment decision. The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Prospectus.

**Base Currency**

The Base Currency of the Company and each of the Funds is U.S. Dollar.

Capitalised terms shall have the same meaning as in the Prospectus.

<b>Investment Objective:</b>	<p>The investment objective of each Fund is set out below.</p> <p><b><u>Calamos U.S. Growth Fund</u></b> The objective is long-term capital growth.</p> <p><b><u>Calamos Global Convertible Opportunities Fund</u></b> The objective is high long-term total return through capital appreciation and current income.</p> <p><b><u>Calamos Global Equity Fund</u></b> The objective is long-term capital growth.</p> <p><b><u>Calamos Emerging Markets Fund</u></b> The objective is long-term capital growth.</p>
------------------------------	---

	<p><b><u>Calamos Global High Income Fund</u></b>  The objective is a high level of current income with the potential for capital appreciation.</p>
<p><b>Investment Policy:</b></p>	<p>The investment policy of each Fund is set out below.</p> <p><b><u>Calamos U.S. Growth Fund</u></b>  The Fund shall seek out securities that, in the Investment Manager’s opinion, offer the best opportunities for growth. The Investment Manager anticipates that primarily all of the Fund’s portfolio will consist of the equity securities, common and preferred stock and warrants (subject to a limit of 5%) of U.S. companies with large and mid-sized market capitalisations. When buying and selling securities, the Investment Manager shall focus on the issuer’s financial soundness, earnings and cashflow forecast and quality of management. In constructing its portfolio, the Investment Manager shall seek to lower the risks of investing in stocks by using a “top-down” approach of diversification by industry and company and by also focusing on macro-level investment themes. The Fund may employ derivatives to reduce risk and/or obtain efficient investment exposure to certain financial instruments. The Fund may invest no more than 10% of its net assets in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the Regulations. The Fund may invest up to 25% of its assets in foreign securities.</p> <p>Pending investment or re-investment or, at any time, for defensive purposes, the Fund may hold up to 100% of its net assets in cash, money market funds and cash equivalent securities.</p> <p><b><u>Calamos Global Convertible Opportunities Fund</u></b>  The Fund shall invest primarily in a globally-diversified portfolio of convertible, equity and fixed-income securities without regard to market capitalisation. The Investment Manager shall attempt to keep a consistent balance between risk and reward over the course of different market cycles, through various combinations of shares, bonds and or/convertible securities. It is expected that the convertible securities will make up a substantial proportion of the Fund at any time. The fixed-income securities may be issued by corporates, governments or public international bodies and the Fund may invest more than 30% of its net asset in below investment grade fixed-income securities. The Fund may also invest in Rule 144A Securities and in structured notes which are listed, traded or dealt in on a Regulated Market worldwide. It is anticipated that the investment process will result in the Fund investing in an internationally-diversified manner, with at least 40% of its assets invested in the securities of non-U.S. issuers. Although not a principal investment strategy, the Fund may invest up to 30% of its net assets in the securities of issuers in emerging markets. The Fund may also make use of convertible securities which embed derivatives, warrants (subject to a limit of 5%) and structured notes provided the notes are freely transferable. The Fund may employ derivatives to reduce risk and/or obtain efficient investment exposure to certain financial instruments. The Fund may invest no more than 10% of its net assets in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the Regulations.</p> <p>Pending investment or re-investment or, at any time, for defensive purposes, the Fund may hold up to 100% of its net assets in cash, money market funds and cash equivalent</p>

securities.

**Calamos Global Equity Fund**

The Fund shall at all times invest primarily in a globally-diversified portfolio of equity securities. Under normal circumstances, the Fund shall invest at least 80% of its net assets in equity securities, including convertible securities. The Fund's portfolio may include securities of well-established companies with large market capitalisations as well as small, unseasoned companies. When considering securities for selection, the Fund shall focus on individual stock selection (referred to as a "bottom-up" approach) and quantitative research. It is anticipated that under normal circumstances the Fund will invest in a globally diversified manner, with at least 40% of its assets in the equity securities of non-U.S. issuers. Although not a principal investment strategy, the Fund may invest in the equity securities of issuers in emerging markets to a significant extent. The Fund may employ derivatives to reduce risk and/or obtain efficient investment exposure to certain financial instruments. The Fund may invest no more than 10% of its net assets in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the Regulations.

Pending investment or re-investment or, at any time, for defensive purposes, the Fund may hold up to 100% of its net assets in cash, money market funds and cash equivalent securities.

**Calamos Emerging Markets Fund**

The Fund will seek to achieve its objective through investment in a globally diversified portfolio of equity, convertible and debt securities of issuers participating in the growth of Emerging Market Countries. It is not proposed that the Fund will concentrate investments in any one industry or sector. The Fund anticipates that, under normal circumstances, the Fund will invest in a globally diversified manner, with at least 35 % of its Net Asset Value in equity, convertible or debt securities of issuers that are organised in Emerging Market Countries. In addition, at least 45 % of the Fund's Net Asset Value will be invested in the equity, convertible or debt securities of any issuer regardless of where it is organised, if the Investment Manager determines that a significant portion (generally, 20 % or more) of the assets or revenues of each such issuer is attributable to Emerging Market Countries. Under normal circumstances, the remaining assets of the Fund will be invested primarily in equity, convertible or debt securities of non-US issuers. The Fund may invest in equity securities which include ordinary shares or common stock, ADRs, GDRs, preference shares and warrants (subject to a limit of 5%). The Fund may also invest in fixed-income securities issued by corporates, governments or public international bodies and the Fund may invest up to 100 % of its net asset in below investment grade fixed-income securities. The Fund may also invest in Rule 144A Securities. The Fund may also invest in structured notes which are listed, traded or dealt in on a Regulated Market worldwide. The Fund may also make use of convertible securities which embed derivatives, warrants (subject to a limit of 5 per cent) and structured notes provided the notes are freely transferable. The Fund may employ derivatives for efficient portfolio management and/or investment purposes. The Fund may invest no more than 10 % of its Net Asset Value in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the whose investment objective and policy are similar to that of the Fund.

Pending investment or re-investment or, at any time, for defensive purposes, the Fund may hold up to 100% of its net assets in cash, money market funds and cash equivalent

	<p>securities.</p> <p><b><u>Calamos Global High Income Fund</u></b></p> <p>The Fund will seek to achieve its objectives primarily through investment in a globally diversified portfolio of fixed and floating rate debt securities that may include up to 25 per cent of its net assets to be invested in Emerging Market Countries. The Fund invests in bonds issued by corporate entities, governments and government agencies located around the world and denominated in various currencies which may be listed, traded or dealt in a Regulated Market worldwide. The Fund may invest up to 100 per cent of its Net Asset Value in either investment or non-investment grade debt securities. Non-investment grade securities typically offer a significantly higher yield, as well as greater risks, than investment grade securities. The Investment Manager allocates the Fund’s assets based upon its assessment of changing market, political and economic conditions. It will consider various factors, including evaluation of interest and currency exchange rate changes and credit risks. The Fund may invest in equity, preferred stock, convertible preferred stock and debt securities convertible into equity. Convertible debt securities are exchangeable for equity securities of the issuer at a predetermined price, and typically offer greater appreciation potential than non-convertible debt securities. The Investment Manager also intends to invest in Rule 144A securities. The Fund may also invest in structured notes which are listed, traded or dealt in on a Regulated Market worldwide. The Fund may also make use of convertible securities which embed derivatives, warrants (subject to a limit of 5 per cent.) and structured notes provided the notes are freely transferable. The Fund may employ derivatives for efficient portfolio management and/or investment purposes. The Fund may invest no more than 10 per cent. of its net assets in units or shares of open-ended collective investment schemes within the meaning of Regulation 68(1)(e) of the Regulations.</p> <p>Pending investment or re-investment or, at any time, for temporary defensive purposes, the Fund may hold up to 100% of its Net Asset Value in cash, money market funds and cash equivalent securities.</p>
<p><b>Risk Profile:</b></p>	<p>The following risk factors apply to the Funds:</p> <ul style="list-style-type: none"> <li>• The value of Shares may fall as well as rise, and investors may not receive back the amount invested.</li> <li>• There can be no assurance that the Funds will achieve their investment objectives.</li> <li>• The value of a Fund’s assets may be affected by uncertainties, such as political developments, changes in government policies, taxation and currency repatriation.</li> <li>• Any Fund will be exposed to the credit risk of parties with which it trades and will also bear the risk of settlement default.</li> <li>• A Fund may issue classes denominated in a currency other than the Base Currency of that Fund. In addition, a Fund may invest in assets that are denominated in a currency other than the Base Currency of that Fund. Accordingly, the value of a Shareholder’s investment may be affected favourably or unfavourably by</li> </ul>

	<p>fluctuations in the rates of the different currencies.</p> <ul style="list-style-type: none"> <li>• The Funds may invest in convertible securities. The value of a convertible security is influenced by changes in interest rates. The credit standing of the issuer and other factors may also have an effect on the convertible security's investment value. The Funds may also invest in synthetic convertible instruments, the value of which will respond differently than a convertible security to market fluctuations because such instruments are composed of two or more separate securities, each with its own market value. In addition, if the value of the underlying common stock or the level of the index involved in the convertible component falls below the exercise price of the warrant or option, the warrant or option may lose all value.</li> <li>• The Funds may use certain financial derivative instruments for efficient portfolio management and/or investment purposes. Whether the use of such instruments will be successful will depend on the Investment Manager's ability to correctly predict whether certain types of investments are likely to produce greater returns than other investments. Also, there are legal risks involved in using financial derivative instruments which may result in loss due to the unexpected application of a law or regulation or because contracts are not legally enforceable or documented correctly.</li> <li>• The markets of Emerging Market Countries are generally more volatile than the markets of countries with more mature economies due to such factors as political, social and economic developments abroad, the difference between the regulations to which Emerging Market Country and developed market issuers are subject, the seizure by the government of company assets, excessive taxation, withholding taxes on dividends and interest, limitations on the use or transfer of portfolio assets and political or social instability. There may also be additional risks in relation to the settlement, safekeeping and evidence of ownership of securities in certain Emerging Market Countries.</li> </ul> <p>A more detailed description of the risk factors that apply to the Funds is set out in the Prospectus.</p>
<b>Performance Data:</b>	Performance data for the Funds is set out in Appendix 1 to this Simplified Prospectus. Performance data is not available in respect of the Calamos Emerging Markets Fund and the Calamos Global High Income Fund as these Funds do not yet have a full year's audited performance history.
<b>Profile of a Typical Investor:</b>	Investment in the Funds is suitable for investors seeking capital growth over a 3 to 5 year time horizon with a moderate level of volatility.
<b>Distribution Policy:</b>	<p>The Directors intend to declare a dividend in respect of the Shares which are identified as distributing Share Classes.</p> <p>All of a Fund's income and capital gains will be reinvested in accordance with the investment objectives and investment policies of the Fund except in respect of the distributing Share Classes. The Directors intend to declare a dividend monthly in respect of the distributing Share Classes of the Calamos Global High Income Fund, quarterly in March, June, September and December in respect of the distributing Share Classes of the Calamos Global Convertible Opportunities Fund and annually in</p>

September in respect of the distributing Share Classes of the Calamos U.S. Growth Fund, the Calamos Global Equity Fund and the Calamos Emerging Markets Fund. Dividends for the distributing Share Classes may, at the sole discretion of the Directors, be paid from a Fund’s net income and net realised and unrealised capital gains less net realised and unrealised losses. Dividends will be automatically reinvested in additional Shares of the same Class of the relevant Fund unless the Shareholder has specifically elected on the application form or subsequently notified the Administrator in writing of its requirement to be paid in cash sufficiently in advance of the declaration of the next dividend payment. Distributing Share Classes are not currently on offer in respect of the Calamos Emerging Markets Fund.

**Fees and Expenses:**

**Shareholder expenses**

An initial charge of up to 5% of the subscription monies may be payable to the Company on subscriptions for Class A Shares in a Fund. No initial charge is payable to the Company on subscriptions for Class C, Class I and Class X Shares in a Fund.

A redemption charge may be payable on the repurchase of Class A and Class C Shares in a Fund. The amount of the redemption charge payable will be 1% of the repurchase monies if the repurchase occurs within 60 days of the purchase of the Shares. No redemption charge shall be payable on the repurchase of Class I or Class X Shares of any Fund. For the purposes of determining whether a redemption charge is payable any Shares redeemed shall be deemed to be those first subscribed.

**Annual Operating Expenses**

**Investment Management Fee**

The amount of the investment management fee for each of the various Classes of Shares of each Fund is set out in the Supplemental Prospectus for each Fund and is expressed as a percentage per annum of the Net Asset Value of each Class of Share in the Fund.

<b>Fund</b>	<b>Class A Shares</b>	<b>Class C Shares</b>	<b>Class I Shares</b>	<b>Class X Shares</b>
Calamos U.S. Growth Fund	1.50%	1.50%	1.00%	Payable pursuant to separate agreement
Calamos Global Convertible Opportunities Fund	1.65%	1.65%	1.05%	Payable pursuant to separate agreement
Calamos Global Equity Fund	1.50%	1.50%	1.00%	Payable pursuant to separate agreement
Calamos Emerging Markets Fund	1.65%	1.65%	1.00%	Payable pursuant to separate agreement
Calamos Global High Income Fund	1.10%	1.10%	0.75%	Payable pursuant to separate agreement

**Distribution Fee**

Each Fund shall pay a distribution fee to the Distributor of up to 1% per annum of the average NAV of that Fund attributable to the Class C Shares.

**Custody and Administration Fees**

The Company will pay to the Custodian and the Administrator monthly in arrears a combined fee of up to 0.08 % per annum of the Net Asset Value per Fund in addition to transactional transfer agency fees payable, subject to a minimum annual fee which will not exceed U.S.\$78,000 per Fund. This minimum fee includes administration services for up to three Share classes per Fund and for each additional Share class, an extra minimum fee of U.S.\$5,000 per annum applies. This fee shall accrue on each Dealing Day. All fees will be invoiced and payable monthly.

The Custodian and the Administrator will also be entitled to be reimbursed by the Company out of the assets of each Fund for all reasonable and vouched out-of-pocket expenses incurred by them and charged to them for the benefit of the Fund in the performance of their duties to the Company and may charge transaction costs on each transaction.

In addition, the Custodian shall be reimbursed any sub-custodial fees and expenses which shall be charged at normal commercial rates.

**Total Expense Ratios**

The following table provides the TER for Calamos U.S. Growth Fund, Calamos Global Convertible Opportunities Fund, Calamos Global Equity Fund, and Calamos Emerging Markets Fund during the fiscal year ended 30 June 2011. The Calamos Global High Income Fund was authorised on 28 June 2012 and has insufficient data to provide this information. Previous TER figures for the Funds are available at [www.calamosglobal.com](http://www.calamosglobal.com).

#### **Portfolio Turnover Rates**

The following table provides the portfolio turnover rate for Calamos U.S. Growth Fund, Calamos Global Convertible Opportunities Fund, Calamos Global Equity Fund and Calamos Emerging Markets Fund during the fiscal year ended 30 June 2011. The Calamos Global High Income Fund was authorised on 28 June 2012 and has insufficient data to provide this information.

Fund Name	Portfolio Turnover Rate
Calamos U.S. Growth Fund	94%
Calamos Global Convertible Opportunities Fund	39%
Calamos Global Equity Fund	36%
Calamos Emerging Markets Fund	34%

The Portfolio Turnover Rate is calculated by taking the difference between 1) the absolute sum of investment purchases and investment sales and 2) the absolute sum of subscriptions and redemptions, and dividing the resulting number with the average net assets. Previous Portfolio Turnover rates for the Funds are available at [www.calamosglobal.com](http://www.calamosglobal.com).

#### **Taxation:**

The Company is resident in Ireland for tax purposes and is generally not subject to Irish taxation charges on income and capital gains. No Irish stamp duty is generally payable on the issue, redemption or transfer of Shares in the Company.

**Shareholders and potential investors should consult with their professional advisers in relation to the tax treatment of their holdings in the Company.**

#### **Publication of Share Price:**

The Net Asset Value per Share shall be made public at the registered office of the Administrator and shall be available in respect of each Dealing Day at [www.calamosglobal.com](http://www.calamosglobal.com). The relevant area of this website is password protected and the password is available from the Administrator. Information available publicly includes the Net Asset Value per Share for the previous Dealing Day and is available for information only. The Net Asset Value per Share of a relevant Class shall be notified to the Irish Stock Exchange immediately upon calculation.

<p><b>How to Buy / Sell / Exchange / Shares</b></p>	<p>Shares in the Funds may be purchased by contacting the Distributor or the Administrator and completing a subscription form which should be forwarded to the Administrator or the Distributor (for onward transmission to the Administrator) prior to 4.00 pm (Eastern Standard Time) on a Dealing Day. Details of minimum initial investment, the minimum subsequent investment and the Minimum Holding per Shareholder for any Fund are set out in the Prospectus.</p> <p>Shareholders may request that Shares be repurchased on or with effect from a Dealing Day by sending a repurchase request to the Administrator.</p> <p>Shareholders may, with the consent of the Directors, convert Shares of one Fund into shares of another Fund on giving notice to the Administrator or Distributor.</p>
<p><b>Additional Information for Investors in Switzerland</b></p>	<p><u>Representative</u> The representative in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, 8021 Zurich</p> <p><u>Paying agent</u> The paying agent in Switzerland is Société Générale Paris, Zurich Branch, Talacker 50, 8021 Zurich</p> <p><u>Place where the relevant documents may be obtained</u> The Prospectus and the simplified prospectus, the articles of association of the Company as well as the annual and semi-annual reports may be obtained free of charge from the Representative.</p> <p><u>Publications</u></p> <ul style="list-style-type: none"> <li>• Publications regarding the Company and its Funds will be made in Switzerland in the Swiss Official Gazette of Commerce (SOGC) and on Swiss Fund Data (www.swissfunddata.ch).</li> <li>• The issue and the redemption prices or the net asset value together with the remark "excluding commissions" of all Share Classes shall be published each time shares are issued or redeemed on Swiss Fund Data (www.swissfunddata.ch). The prices will be published daily (Monday through Friday).</li> </ul>

**Appendix 1**

**Performance Data**

Please note that past performance is not necessarily a guide to the future performance of the Funds. The performance data is net of taxes and charges and does not include initial charges, repurchase fees or any anti-dilution levies payable. Investment returns and principal value will fluctuate so that when Shares are redeemed, they may be worth more or less than their original cost. Due to market conditions, current performance may be higher or lower than the data shown. Past performance data of the other Share Classes in the Funds are available in the 30 June 2011 Annual Report or from the Manager upon request.
