\*Morningstar Ratings™ are based on risk-adjusted returns for Class I shares and will differ for other share classes. Morningstar Ratings based on a risk-adjusted return measure that accounts for variation in a fund's monthly historical performance (reflecting sales charges), placing more emphasis on downward variations and rewarding consistent performance. Within each asset class, the top 10%, the next 22.5%, 35%, 22.5%, and the bottom 10% receive 5, 4, 3, 2, or 1 star, respectively. Each fund is rated exclusively against U.S. domiciled funds. The MSCI ACWI Growth is a free float-adjusted market capitalization weighted index that is designed to measure the growth equity market performance of developed and

emerging markets. The MSCI World Index is a market capitalisation weighted index representative of the market structure of developed market countries in North America, Europe, and the Asia/Pacific region.

Debt/capital ratio is a measure of a company's financial leverage, calculated as the company's debt divided by its total capital. PEG ratio is a stock's price/earnings ratio divided by estimated earnings growth rate in the next year; a lower PEG indicates that less is being paid for each unit of earnings growth. Price/earnings ratio is the current stock price over trailing 12-month earnings per share. ROIC (return on invested capital) measures how effectively a company uses the money invested in its operations, calculated as a company's net income minus any dividends divided by the company's total capital. The higher the ratio, the better the portfolio's risk-adjusted return is.
