Distributions are subject to recharacterization for tax purposes within 60 days after the end of the fiscal year (10/31). The fund's first distribution occurred June 2015.

The portfolio is actively managed. Holdings and weightings are subject to change at any time without notice.

¹ Data is based on managed assets.

² Data is based on portfolio holdings.

³ Top 10 Holdings and Sector Weightings are calculated as a percentage of Managed Assets. The tables exclude cash or cash equivalents, any government/sovereign bonds or broad based index hedging securities the portfolio may hold.

⁴ Leverage creates risks which may adversely affect return, including the likelihood of greater volatility of net asset value and market price of common shares; and fluctuations in the variable rates of the leverage financing. The ratio is the percent of borrowing to managed assets.

⁵ Credit ratings apply to the credit worthiness of the issuers of the underlying securities and not to the fund or its shares. Ratings are subject to change. Bond Credit Quality reflects the higher of the ratings of Standard & Poor's Corporation and Moody's Investors Service, Inc. Ratings are relative, subjective and not absolute standards of quality, represent the opinions of the independent Nationally Recognized Statistical Rating Organizations (NRSRO), and are adjusted to the Standard & Poor's scale shown. Ratings are measured using a scale that typically ranges from AAA (highest) to D (lowest). The security's credit rating does not eliminate risk. The table excludes equity securities, cash and cash equivalents. For more information about securities ratings, please see the Fund's Statement of Additional Information at www.calamos.com. Additional information on ratings methodologies are available by visiting the NRSRO websites: www.standardandpoors.com, www.moody.com.

⁶ Interest expense and related fees on payments made to the Fund's outstanding credit facility and distributions to mandatory redeemable preferred shareholders and related fee.

The ICE BofAML All U.S. Convertibles Index (VXA0) represents the U.S. convertible market. The Bloomberg Barclays U.S. Aggregate Bond Index covers the U.S.-denominated, investment-grade, fixed-rate, taxable bond market of SEC-registered securities. The index includes bonds from the Treasury, Government-Related, Corporate, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBs sectors. Source ICE Data Indices, LLC, used with permission. ICE permits use of the ICE BofAML indices and related data on an "as is" basis, makes no warranties regarding same, does not guarantee the suitability, quality, accuracy, timeliness, and/or completeness of the ICE BofAML Indices or data included in, related to, or derived therefrom, assumes no liability in connection with the use of the foregoing and does not sponsor, endorse or recommend Calamos Advisors LLC or any of its products or services.

Important Fund Information

You can purchase or sell common shares daily. Like any other stock, market price will fluctuate with the market. Upon sale, your shares may have a market price that is above or below net asset value and may be worth more or less than your original investment. Shares of closed-end funds frequently trade at a market price that is below their net asset value.

Investments by the Fund in lower-rated securities involve substantial risk of loss and present greater risks than investments in higher-rated securities, including less liquidity and increased price sensitivity to changing interest rates and to a deteriorating economic environment. Fixed income securities are subject to interest-rate risk; as interest rates go up, the value of debt securities in the Fund's portfolio generally will decline. There are certain risks associated with an investment in a convertible bond

such as default risk—that the company issuing a convertible security may be unable to repay principal and interest, and interest rate risk—that the convertible may decrease in value if interest rates increase.

The Fund's ability to close out its position as a purchaser or seller of an over-the-counter or exchange-listed put or call option is dependent, in part, upon the liquidity of the option market. There are significant differences between the securities and options markets that could result in an imperfect correlation among these markets, causing a given transaction not to achieve its objectives. The Fund's ability to utilize options successfully will depend on the ability of the Fund's investment adviser to predict pertinent market movements, which cannot be assured.

Investment Adviser Purchase Risk. As contemplated in the Fund's prospectus, Calamos Advisors LLC (the "Adviser") has entered into a 10b5-1 Plan under which a registered broker-dealer (not a member of the underwriting syndicate involved in the offering of the Fund), as agent for the Adviser, will purchase in the open market up to \$20 million of our common shares in the aggregate, on such terms and at times, and subject to a variety of market and discount conditions and a daily purchase limit, to be described in a subsequent press release. See "Management of the Fund — Related-Party Transactions" in the Fund's prospectus. Whether purchases will be made under the 10b5-1 Plan and how much will be purchased at any time is uncertain, dependent on prevailing market prices and trading volumes, all of which we cannot predict. Although intended to provide liquidity, these activities may have the effect of maintaining the market price of our common shares or suppressing a decline in the market price of the common shares, and, as a result, the price of our common

SECTOR WEIGHTINGS ^{1,3}	%

shares may be higher than the price that otherwise might exist in the open market. Conversely, any eventual sale of purchased common shares by the Adviser and its affiliates may act as a catalyst for a decline in the Fund's market price, and therefore the market price of our common shares may be lower than the price that might otherwise exist in the open market.

Limited Term Risk. Unless the Termination Date is amended by shareholders in accordance with the Declaration of Trust, the Fund will be terminated on the 15th anniversary of its effective date, currently expected to be March 26, 2030. If the Fund's Board of Trustees believes that under then current market conditions it is in the best interests of the Fund to do so, the Fund may extend the Termination Date for one year, which is anticipated to be March 26, 2031, without a shareholder vote, upon the affirmative vote of three-quarters of the Trustees then in office. Beginning one year before the Termination Date (the "wind-down period"), the Fund may begin liquidating all or a portion of the Fund's portfolio. During the wind-down period the Fund may deviate from its investment strategy. As a result, during the wind-down period the Fund's distributions may decrease, and such distributions may include a return of capital.
