

OVERVIEW

The fund invests in growth companies globally, whose principal activities are in developing markets or are economically tied to developing market countries that we believe offer the best opportunities for emerging market growth.

KEY FEATURES

- » Stresses company fundamentals, including global presence, strong revenue and earnings growth, solid returns on invested capital, and lower debt-to-capital levels
- » Actively seeks growth opportunities by investing in equities, with at least 80% emerging market exposure
- » Draws upon decades of Calamos experience investing globally through multiple economic, market and credit cycles

PORTFOLIO FIT

This actively managed fund complements EM strategies with less pronounced growth orientations, such as those that more closely track the broad EM equity market.

An Active Approach to Emerging Markets Investing

Calamos Emerging Markets Fund utilizes an active, risk-aware approach with the goal of accessing superior long-term growth potential in emerging markets while also mitigating the downside risks associated with these inherently volatile regions.

HOW MUCH SHOULD INVESTORS ALLOCATE TO EMERGING EQUITIES?

Probably More Than They Have Recently, Given Significant Underinvestment In EM Equities

ANNUALISED RETURNS (%)	1-YEAR	3-YEAR	5-YEAR	SINCE A SHARE INCEPTION	SINCE I SHARE INCEPTION

Performance data quoted represents past performance, and may not be a reliable guide to future results. Performance data quoted does not include the Fund's maximum 5% front-end sales charge. Had it been included, the Fund's returns would have been lower. Performance shown reflects the management fee. All performance shown assumes reinvestment of dividends and capital gains distributions. Returns for periods less than 12 months are not annualised. See "Important Information" on the next page for more information.

Calamos Emerging Markets Fund is a sub-fund of Calamos Global Funds PLC, an investment company with variable capital incorporated with limited liability in Ireland (registered number 444463), and is authorised and regulated by the Irish Financial Regulator as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). The Fund is registered for public offer and sale in the following jurisdictions: Austria, Belgium, Cyprus, France, Germany, Greece, Luxembourg, Netherlands, Spain, Switzerland and the United Kingdom. In addition, the Fund is registered for institutional sales in Italy and as a "Restricted Scheme" for purposes of the private placement regime in Singapore. The Fund is not registered in Hong Kong. The Company is a recognised scheme in the U.K. for the purposes of the Financial Services and Markets Act 2000, but is not authorised under such Act and therefore investors will not be entitled to compensation under the U.K. Financial Services Compensation Scheme. Calamos Investments LLP, is authorised and regulated by the Financial Conduct Authority, and is the distributor of the Calamos Global Funds PLC.

Important Information. Portfolios are managed according to their respective strategies which may differ significantly in terms of security holdings, industry weightings, and asset allocation from those of the benchmark(s). Portfolio performance, characteristics and volatility may differ from the benchmark(s) shown. Average annual total return measures net investment income and capital gain or loss from portfolio investments as an annualised average. All performance shown assumes reinvestment of dividends and capital gains distributions.

Sources for performance data: Calamos Advisors LLC, RBC Investor Services Ireland Limited ("RBC"), Bloomberg and Mellon Analytical Solutions, LLC.

The Fund is offered solely to non-U.S. investors under the terms and conditions of the fund's current prospectus. The prospectus contains important information about the Fund and should be read carefully before investing. A copy of the full prospectus and applicable Key Investor Information Document (KIID) for the Fund may be obtained by visiting www.calamos.com/global, or by contacting the local Paying Agent listed by jurisdiction at www.calamos.com/global, or through the fund's Transfer Agent, RBC Investor Services Ireland Limited.

Markets Index is a free float-adjusted market capitalization index that is designed to measure equity market performance of emerging markets. The index is calculated without dividends, with net or with gross dividends reinvested, in both US dollars and local currencies. Unmanaged index returns assume reinvestment of any and all distributions and do not reflect any fees, expenses or sales charges. Investors cannot invest directly in an index.

Debt/capital ratio is a measure of a company's financial leverage, calculated as the company's debt divided by its total

Tracking Error	6.87%	N/A

capital. **ROIC** (return on invested capital) measures how effectively a company uses the money invested in its operations, calculated as a company's net income minus any dividends divided by the company's total capital. **Alpha** is the measurement of performance on a risk adjusted basis. A positive alpha shows that performance of a portfolio was higher than expected given the risk. A negative alpha shows that the performance was less than expected given the risk. **Beta** is a historic measure of a fund's relative volatility, which is one of the measures of risk; a beta of 0.5 reflects 1/2 the market's volatility as represented by the Fund's primary benchmark, while a beta of 2.0 reflects twice the volatility. **Sharpe ratio** is a calculation that reflects the reward per each unit of risk in a portfolio. The higher the ratio, the better the portfolio's risk-adjusted return is. **Standard deviation** is a measure of volatility. R-squared is a mathematical measure that describes how closely a security's movement reflects movements in a benchmark. **Information ratio** is the measurement of the performance returns of a portfolio against the performance volatility of an index or benchmark. **Information ratio** is generally used as a gauge to measure the ability of a portfolio to generate excess returns of the index or benchmark. **Tracking error** is a measure of the volatility of excess returns relative to a benchmark.
