

High Income Fund

CALAMOS®

OVERVIEW

The fund invests in a diversified portfolio of U.S. and non-U.S. high yield bonds.

KEY FEATURES

- » **Focus on the mid-credit tiers** using three decades of credit evaluation to find issuers with sustainable revenues and lower risk of default
- » **Emphasis on total return**, rather than an exclusive focus on yield, may enhance our ability to generate alpha and preserve capital over the entire credit cycles
- » **A disciplined process** using fundamental analysis which can potentially provide the best opportunity for identifying investments

PORTFOLIO FIT

With a total return emphasis, the fund can complement speculative-grade or investment-grade credit exposure which may provide an attractive option for fixed income investors concerned about generating income.

Performance data quoted represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance quoted. *The principal value and return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. Performance reflected at NAV does not include the Fund's maximum front-end sales load of 4.75% had it been included, the Fund's return would have been lower. Calendar year returns measure net investment income and capital gain or loss from portfolio investments for each period specified. Average annual total return measures net investment income and capital gain or loss from portfolio investments as an annualized average. All performance shown assumes reinvestment of dividends and capital gains distributions. The Fund also offers Class B and C Shares, the performance of which may vary. In calculating net investment income, all applicable fees and expenses are deducted from the returns.

Class I shares are offered primarily for direct investment by investors through certain tax-exempt retirement plans (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans, defined benefit plans and non qualified deferred compensation plans) and by institutional clients, provided such plans or clients have assets of at least \$1 million. Class I shares may also be offered to certain other entities or programs, including, but not limited to, investment companies, under certain circumstances.

There can be no assurance the Fund will achieve its investment objectives.

NOTES (ALPHABETICAL)

Annualized Standard Deviation is a statistical measure of the historical volatility of a mutual fund or portfolio, usually computed using 36 monthly returns. **Beta** is a historic measure of a fund's relative volatility, which is one of the measures of risk; a beta of 0.5 reflects 1/2 the market's volatility as represented by the Fund's primary benchmark, while a beta of 2.0 reflects twice the volatility. **BofA Merrill Lynch BB-B U.S. High Yield Constrained Index** contains all securities in The BofA Merrill Lynch U.S. High Yield Index rated BA1 through B3, based on an average of Moody's, S&P and Fitch, but caps issuer exposure at 2%. Index constituents are capitalization-weighted, based on their current amount outstanding, provided the total allocation to an individual issuer does not exceed 2%. **Credit Suisse High Yield Index** is an unmanaged index of high yield debt securities. **Current (SEC) Yield** reflects the dividends and interest earned by the Fund during the 30-day period ended as of the date stated above after deducting the Fund's expenses for that same period. **Morningstar High Yield Bond Category** represents funds with at least 65% of assets in bonds rated below BBB. **Weighted Average Duration** is the weighted average time to full recovery of principal and interest payments for a fixed income security; typically used to discuss interest rate sensitivity of an investment; duration is a less useful measure for equity and equity sensitive investments.

Unmanaged index returns assume reinvestment of any and all distributions and, unlike fund returns, do not reflect fees, expenses or sales charges. Investors cannot invest directly in an index.

^a Bond credit quality allocation reflects the higher of the ratings of Standard & Poor's Corporation; Moody's Investors Service, Inc. or Fitch, Inc. Ratings are relative, subjective and not absolute standards of quality, represent the opinions of the independent, Nationally Recognized Statistical Rating Organizations (NRSRO), and are adjusted to the Standard & Poor's scale shown. Ratings are measured using a scale that typically ranges from AAA (highest) to D (lowest). In addition, CAL has assigned its own ranking to the "unrated bonds," based on its fundamental and proprietary investment process and has years of experience actively managing risk. The security's credit rating does not eliminate risk. The table excludes equity securities, cash and cash equivalents. For more information about securities ratings, please see the Fund's Statement of Additional Information at www.calamos.com. Additional information on ratings methodologies are available by visiting the NRSRO websites: www.standardandpoors.com, www.moody.com, and www.fitchratings.com.

ties risk consisting of the potential for a decline in value during periods of rising interest rates and the risk of the borrower to miss payments, synthetic convertible instruments risk, interest rate risk, credit risk, liquidity risk, portfolio selection risk, foreign securities risk and liquidity risk.

The Fund's fixed income securities are subject to interest rate risk. If rates increase, the value of the Fund's investments generally declines. Owning a bond fund is not the same as directly owning fixed income securities. If the market moves, losses will occur instantaneously, and there will be no ability to hold a bond to maturity.

As a result of political or economic instability in foreign countries, there can be special risks associated with investing in foreign securities, including fluctuations in currency exchange rates, increased price volatility and difficulty obtaining information. In addition, emerging markets may present additional risk due to potential for greater economic and political instability in less developed countries.

Before investing carefully consider the fund's investment objectives, risks, charges and expenses. Please see the prospectus and summary prospectus containing this and other information or call 1-800-582-6959. Read it carefully before investing.
