

Calamos Dividend Growth Fund

OVERVIEW

The fund invests in companies that we believe have an ability to increase dividends over time, either through increasing profits or more efficient use of capital.

KEY FEATURES

- » Employs bottom-up stock picking and a benchmark-agnostic approach.
- » Focuses on good businesses with solid cash flows and value prices.

PORTFOLIO FIT

The fund may be suitable for investors seeking a regular stream of income and dividend-paying equity investments that tend to be less volatile than non-dividend payers.

Opportunistic Investing with a Focus on Income

In addition to providing income, dividend-paying companies can potentially deliver both lower volatility and better risk-adjusted performance than companies that don't pay dividends.

HISTORICALLY, DIVIDEND STOCKS HAVE HAD LOWER VOLATILITY AND HIGHER RETURNS

The S&P 500 Dividend Aristocrats Index – consisting of S&P 500 firms that have increased dividends every year over the past 25 years – has had lower volatility and relatively high sharpe ratios compared to the overall S&P 500 Index.

Past performance is no guarantee of future results. The Calamos Dividend Growth Fund has an effective date of 8/5/13. There are significant differences between the S&P 500 Dividend Aristocrats Index, the S&P 500 Index and the fund itself. The S&P 500 Index includes newer and more growth-oriented companies than the S&P 500 Dividend Aristocrats Index and as a result may be subject to greater volatility. The S&P 500 Dividend Aristocrats Index includes established dividend-paying companies, which may lead the index to have diminished potential for capital gains relative to the S&P 500. The indexes shown are not intended as proxies for the fund's actual performance and may differ significantly from performance of the fund.

A Shares - at NAV (Inception-8/5/13)	9.97	13.32	7.69	8.37%	N/A
A Shares - Load adjusted	4.72	11.49	6.65	7.48	N/A
S&P 500 Index	10.42	14.19	10.71	11.95	11.95

Performance data quoted represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance quoted. Please refer to Important Risk Information. The principal value and return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. Performance reflected at NAV does not include the Fund's maximum front-end sales load of 4.75%. Had it been included, the Fund's return would have been lower. For the most recent fund month-end performance information visit www.calamos.com.

CALENDAR YEAR RETURNS

YTD 2019	2018	2017	2016	2015	2014
Calamos Dividend Growth Fund A Shares - at NAV					
17.82%	-4.98%	20.93%	9.47%	-0.04%	0.71%
S&P 500 Index					
18.54	-4.38	21.83	11.96	1.38	13.69

Calendar year returns measure net investment income and capital gain or loss from portfolio investments for each period specified. Average annual total return measures net investment income and capital gain or loss from portfolio investments as an annualized average. All performance shown assumes reinvestment of dividends and capital gains distributions. In calculating net investment income, all applicable fees and expenses are deducted from the returns. The Fund also offers C Shares, the performance of which may vary. Class I shares are offered primarily for direct investment by investors through certain tax-exempt retirement plans (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans, defined benefit plans and non-qualified deferred compensation plans) and by institutional clients, provided such plans or clients have assets of at least \$1 million. Class I shares may also be offered to certain other entities or programs, including, but not limited to, investment companies, under certain circumstances.

There can be no assurance that the Fund will achieve its investment objective.

[†]The Fund's Investment Adviser has contractually agreed to reimburse Fund expenses through March 1, 2022 to the extent necessary so that Total Annual Fund Operating Expenses (excluding taxes, interest, short interest, short dividend expenses, brokerage commissions, acquired fund fees and expenses and extraordinary expenses, if any) of Class A, Class C, and Class I are limited to 1.35%, 2.10%, and 1.10% of average net assets, respectively. Calamos Advisors may recapture previously waived expense amounts within the same fiscal year for any day where the respective Fund's expense ratio falls below the contractual expense limit up to the expense limit for that day. This undertaking is binding on Calamos Advisors and any of its successors and assigns. This agreement is not terminable by either party.

Portfolios are managed according to their respective strategies which may differ significantly in terms of security holdings, industry weightings, and asset allocation from those of the benchmark(s). Portfolio performance, characteristics and volatility may differ from the benchmark(s) shown. Please refer to Important Risk Information.

NOTES

Annualized standard deviation is a statistical measure of the historical volatility of a mutual fund or portfolio, usually computed using 36 month returns. **PEG ratio** is a stock's price/earnings ratio divided by estimated earnings growth rate in the next year; a lower PEG indicates that less is being paid for each unit of earnings growth. **Portfolio turnover** is the percentage of assets in a portfolio that changed over a certain period, often a year; higher turnover indicates greater buying and selling activity. **Sharpe ratio** is risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. The higher the Sharpe ratio, the better the historical risk-adjusted performance. **30-Day SEC yield** reflects the dividends and interest earned by the Fund during the 30-day period ended as of the date stated after deducting the Fund's expenses for that same period.

The **S&P 500 Index** is a market-value weighted index consisting of 500 stocks chosen for market size, liquidity, and industry group representation. It is widely regarded as the standard for measuring U.S. stock-market performance. The **S&P Dividend Aristocrats Index** includes S&P Index companies that have increased dividends every year for the past 25 years. CUSIP identifiers have been provided by CUSIP Global Services, managed on behalf of the American Bankers Association by S&P Global Market Intelligence LLC, and are not for use or dissemination in a manner that would serve as a substitute for any CUSIP service. Unmanaged index returns assume reinvestment of any and all distributions and, unlike fund returns, do not reflect fees, expenses or sales charges. Investors cannot invest directly in an index.

Important Risk Information. An investment in the Fund(s) is subject to risks, and you could lose money on your investment in the Fund(s). There can be no assurance that the Fund(s) will achieve its investment objective. Your investment in the Fund(s) is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. The risks associated with an investment in the Fund(s) can increase during times of significant market volatility. The Fund(s) also has specific principal risks, which are described below. More detailed information regarding these risks can be found in the Fund's prospectus.

The principal risks of investing in the Calamos Dividend Growth Fund include the risk of: declining equity values; losses from MLPs related to lack of portfolio diversification, changes in tax laws, lack of liquidity, declining equity values, and conflicts over control rights; incorrect selection of judgments on portfolio holdings by the investment advisor; increased transaction costs because of frequent turnover; losses from currency fluctuations; lack of liquidity or correlation to underlying securities in the options market; and potential illiquidity of securities purchased privately under Rule 144A.

Options Risk—the Fund's ability to close out its position as a purchaser or seller of an over-the-counter or exchange-listed put or call option is dependent, in part, upon the liquidity of the options market. There are significant differences between the securities and options markets that could result in an imperfect correlation among these markets, causing a given transaction not to achieve its objectives. The Fund's ability to utilize options successfully will depend on the ability of the Fund's investment advisor to predict pertinent market movements, which cannot be assured.

As a result of political or economic instability in foreign countries, there can be special risks associated with investing in foreign securities, including fluctuations in currency exchange rates, increased price volatility and difficulty obtaining information. In addition, emerging markets may present additional risk due to potential for greater economic and political instability in less developed countries.

Before investing, carefully consider the fund's investment objectives, risks, charges and expenses. Please see the prospectus and summary prospectus containing this and other information which can be obtained by calling 1-800-582-6959. Read it carefully before investing.
