

Summary Prospectus

Calamos Global Equity Fund

NASDAQ Symbol: CGEOX – Class R6

Before you invest, you may want to review the Fund's prospectus and statement of additional information, which contain more information about the Fund and its risks. You can find the Fund's prospectus, statement of additional information, reports to shareholders and other information about the Fund online at <https://www.calamos.com/resources/>. You can also get this information at no cost by calling 800.582.6959 or by sending an e-mail request to prospectus@calamos.com. The current prospectus and statement of additional information, both dated June 23, 2020, as amended August 4, 2020 (and as each may be amended or supplemented), and the financial statements included in the Fund's recent report to shareholders, dated October 31, 2019, are incorporated by reference into this summary prospectus.

Beginning on March 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by calling 800.582.6959. If you own these shares through a financial intermediary, you may contact your financial intermediary.

You may elect to receive all future reports in paper free of charge. You can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by calling 800.582.6959. If you own these shares through a financial intermediary, you may contact your financial intermediary or follow instructions included with this disclosure to elect to continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held with the fund complex or your financial intermediary.

Investment Objective

Calamos Global Equity Fund's investment objective is long-term capital growth.

Fees and Expenses of the Fund

The following table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. Investors may pay commissions and/or other forms of compensation to an intermediary, such as a plan record-keeper or financial intermediary, for transactions in Class R6 shares, which are not reflected in the table or the example below.

Shareholder Fees (fees paid directly from your investment):

	CLASS R6
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load) (as a percentage of the lesser of the redemption price or offering price)	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

	CLASS R6
Management Fees (subject to performance adjustment)	0.96%
Distribution and/or Service Fees (12b-1)	None
Other Expenses ¹	0.23%
Total Annual Fund Operating Expenses	1.19%
Expense Reimbursement ²	(0.11)%
Total Annual Fund Operating Expenses After Reimbursement	1.08%

¹ "Other Expenses" are based on estimated amounts for the current fiscal year.

² The Fund's investment advisor has contractually agreed through March 1, 2022 to limit the Fund's annual ordinary operating expenses for Class R6 shares (as a percentage of average net assets) to 1.15% less the annual sub-transfer agency ratio for the Fund. The annual sub-transfer agency ratio is equal to the aggregate sub-transfer agency expenses common to the other share classes of the Fund divided by the aggregate average annual net assets of the Fund's other share classes. For purposes of this expense limitation, operating expenses do not include taxes, interest, short interest, short dividend expenses, brokerage commissions, acquired fund fees and expenses, and extraordinary expenses, if any. Calamos Advisors may recapture previously waived expense amounts within the same fiscal year for any day where the respective Fund's expense ratio falls below the contractual expense limit up to the expense limit for that day. This undertaking is binding on Calamos Advisors and any of its successors and assigns. This agreement is not terminable by either party.

Calamos Global Equity Fund

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then either redeem or do not redeem your shares at the end of the reflected time periods. This example does not include commissions and/or other forms of compensation that investors may pay on transactions in Class R6 shares. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Any applicable fee waivers and/or expense reimbursements are reflected in the below example for the period through March 1, 2022 only. Although your actual performance and costs may be higher or lower, based on these assumptions, your costs would be:

You would pay the following expenses whether or not you redeemed your shares at the end of the period:

	One Year	Three Years	Five Years	Ten Years
Class R6	\$110	\$359	\$637	\$1,428

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 72.4% of the average value of its portfolio.

Principal Investment Strategies

The Fund invests primarily in a globally-diversified portfolio of equity securities. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings) in equity securities, including convertible securities convertible into equity securities. The Fund's portfolio may include securities of well-established companies with large market capitalizations as well as small, unseasoned companies. The Fund's investment adviser generally defines a large cap company to have a market capitalization in excess of \$25 billion and a mid-sized company to have a market capitalization greater than \$1 billion, up to \$25 billion. Generally, a small cap company is defined by the investment adviser as having a market capitalization of up to \$1 billion. The market capitalization of a security is measured at the time of purchase.

The Fund anticipates that, under normal circumstances, the investment adviser's process will result in the Fund investing in a globally diversified manner, with at least 40% of its assets in securities of foreign issuers. Securities of foreign issuers are securities issued by issuers that are organized under the laws of a foreign country or that have a substantial portion of their operations or assets in a foreign country or countries, or that derive a substantial portion of their revenue or profits from businesses, investments or sales outside of the United States. The Fund may also invest in foreign securities that are represented in the United States securities markets by American Depositary Receipts ("ADRs") or similar depository arrangements. Although not a principal investment strategy, the Fund may invest in securities of issuers in emerging markets to a significant extent.

In its fundamental analysis, the Fund's investment adviser typically considers the company's financial soundness, earnings and cash flow forecast and quality of management. The investment adviser takes environmental, social and governance ("ESG") factors into account in making investment decisions. The Fund's investment adviser seeks to lower the risks of investing in stocks by using a "top-down approach" of diversification by company, industry, sector, country and currency and focusing on macro-level investment themes.

Principal Risks

An investment in the Fund is subject to risks, and you could lose money on your investment in the Fund. There can be no assurance that the Fund will achieve its investment objective. The risks associated with an investment in the Fund can increase during times of significant market volatility. Your investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The principal risks of investing in the Fund include:

- **American Depositary Receipts Risk** — The stocks of most foreign companies that trade in the U.S. markets are traded as American Depositary Receipts (ADRs). U.S. depository banks issue these stocks. Each ADR represents one or more shares of foreign stock or a fraction of a share. The price of an ADR corresponds to the price of the foreign stock in its home market, adjusted to the ratio of the ADRs to foreign company shares. Therefore while purchasing a security on a U.S. exchange, the risks inherently associated with foreign investing still apply to ADRs.
- **Emerging Markets Risk** — Emerging market countries may have relatively unstable governments and economies based on only a few industries, which may cause greater instability. The value of emerging market securities will likely be particularly sensitive to changes in the economies of such countries. These countries are also more likely to experience higher levels of inflation, deflation or currency devaluations, which could hurt their economies and securities markets.
- **Equity Securities Risk** — The securities markets are volatile, and the market prices of the Fund's securities may decline generally. The price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions. If the market prices of the securities owned by the Fund fall, the value of your investment in the Fund will decline.

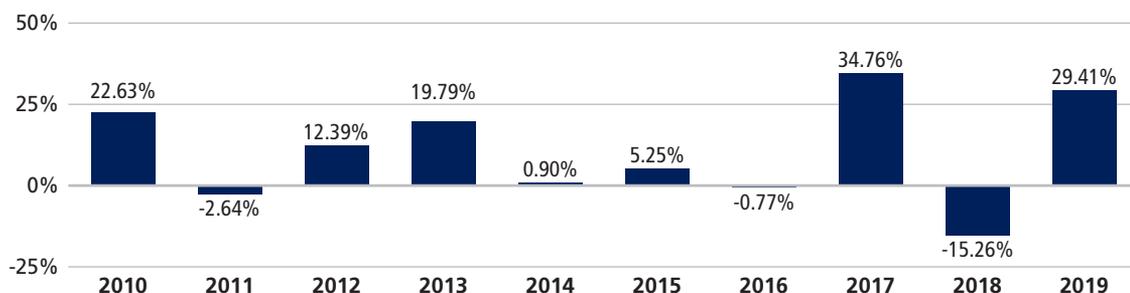

Calamos Global Equity Fund

- **Foreign Securities Risk** — Risks associated with investing in foreign securities include fluctuations in the exchange rates of foreign currencies that may affect the U.S. dollar value of a security, the possibility of substantial price volatility as a result of political and economic instability in the foreign country, less public information about issuers of securities, different securities regulation, different accounting, auditing and financial reporting standards and less liquidity than in U.S. markets.
- **Forward Foreign Currency Contract Risk** — Forward foreign currency contracts are contractual agreements to purchase or sell a specified currency at a specified future date (or within a specified time period) at a price set at the time of the contract. The Fund may not fully benefit from, or may lose money on, forward foreign currency transactions if changes in currency exchange rates do not occur as anticipated or do not correspond accurately to changes in the value of the Fund's holdings.
- **Growth Stock Risk** — Growth securities typically trade at higher multiples of current earnings than other securities and, therefore, may be more sensitive to changes in current or expected earnings than other equity securities and may be more volatile.
- **Portfolio Selection Risk** — The value of your investment may decrease if the investment adviser's judgment about the attractiveness, value or market trends affecting a particular security, issuer, industry or sector or about market movements is incorrect.
- **Sector Risk** — To the extent the Fund invests a significant portion of its assets in a particular sector, a greater portion of the Fund's performance may be affected by the general business and economic conditions affecting that sector. Each sector may share economic risk with the broader market, however there may be economic risks specific to each sector. As a result, returns from those sectors may trail returns from the overall stock market and it is possible that the Fund may underperform the broader market, or experience greater volatility.
- **Securities Lending Risk** — The Fund may lend its portfolio securities to broker-dealers and banks in order to generate additional income for the Fund. Any such loan must be continuously secured by collateral in cash or cash equivalents maintained on a current basis in an amount at least equal to the market value of the securities loaned by the Fund. In the event of bankruptcy or other default of a borrower of portfolio securities, the Fund could experience both delays in liquidating the loan collateral or recovering the loaned securities and losses, including (a) possible decline in the value of the collateral or in the value of the securities loaned during the period while the Fund seeks to enforce its rights thereto, (b) possible subnormal levels of income and lack of access to income during this period, and (c) expenses of enforcing its rights. In an effort to reduce these risks, the Fund's securities lending agent monitors, and reports to Calamos Advisors on, the creditworthiness of the firms to which a Fund lends securities. The Fund may also experience losses as a result of a diminution in value of its cash collateral investments.
- **Small and Mid-Sized Company Risk** — Small and mid-sized company stocks have historically been subject to greater investment risk than large company stocks. The prices of small and mid-sized company stocks tend to be more volatile than prices of large company stocks.
- **Value Stock Risk** — Value stocks involve the risk that they may never reach what the Fund's investment adviser believes is their full market value. Additionally, because different types of stocks tend to shift in and out of favor depending on market conditions, a value fund's performance may sometimes be higher or lower than that of other types of funds (such as those emphasizing growth stocks).

Fund Performance

The following bar chart and table indicate the risks of investing in the Fund by showing changes in the Fund's performance from calendar year to calendar year and how the Fund's average annual total returns compare with those of a broad measure of market performance. All returns include the reinvestment of dividends and distributions. As always, please note that the Fund's past performance (before and after taxes) cannot predict how it will perform in the future. Updated performance information is available at no cost by visiting www.calamos.com or by calling 800.582.6959.

CLASS I* ANNUAL TOTAL RETURN FOR YEARS ENDED 12.31¹

Highest Quarterly Return: 15.68% (3.31.19)

Lowest Quarterly Return: -18.36% (12.31.18)

* Annual returns for Class I are provided because Class I shares represent the largest percentage of assets in the Calamos Family of Funds.

Calamos Global Equity Fund

Average Annual Total Returns as of 12.31.19

The following table shows how the Fund's average annual performance (before and after taxes) for the one-, five-, and ten-year periods ended December 31, 2019 and since the Fund's inception compared with broad measures of market performance. "Since Inception" returns shown for each index are returns since the inception of the Fund's Class A shares, or since the nearest subsequent month end when comparative index data is available only for full monthly periods. The after-tax returns show the impact of assumed federal income taxes on an investment in the Fund. "Return After Taxes on Distributions" shows the effect of taxable distributions, but assumes that you still hold the Fund shares at the end of the period and so do not have any taxable gain or loss on your investment. "Return After Taxes on Distributions and Sale of Fund Shares" shows the effect of taxable distributions and any taxable gain or loss that would be realized if the Fund shares were purchased at the beginning and sold at the end of the specified period.

The after-tax returns are shown only for Class I shares, and are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and the after-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns for classes other than Class I will vary from returns shown for Class I. "Return After Taxes on Distributions and Sale of Fund Shares" may be higher than other returns for the same period due to a tax benefit of realizing a capital loss on the sale of Fund shares.

AVERAGE ANNUAL TOTAL RETURNS — FOR THE PERIODS ENDED 12.31.19¹

	INCEPTION DATE OF CLASS	ONE YEAR	FIVE YEAR	TEN YEAR	SINCE INCEPTION
Class A	3.1.07				
Load Adjusted Return before taxes		22.97%	7.75%	8.80%	7.13%
Class C	3.1.07				
Load Adjusted Return before taxes		27.17%	7.97%	8.52%	6.74%
Class I	3.1.07				
Return before taxes		29.41%	9.07%	9.61%	7.82%
Return after taxes on distributions*		27.34%	6.78%	7.86%	6.36%
Return after taxes on distributions and sale of Fund shares*		19.00%	6.85%	7.58%	6.14%
MSCI World Index		28.40%	9.36%	10.08%	6.46%
MSCI ACWI Index		27.30%	9.00%	9.37%	7.21%

¹ Because the Fund's Class R6 shares have not commenced operations as of the date of this prospectus, the information provided above represents the performance of the Fund's other share classes, as applicable. Class R6 shares would have substantially similar performance because the shares are invested in the same portfolio of securities. The gross annual returns of the Class R6 shares will be different from the gross annual returns of the Fund's other share classes, as applicable because the Total Annual Fund Operating Expenses associated with that class will be different.

* Returns after taxes for Class I are provided because Class I shares represent the largest percentage of assets in the Calamos Family of Funds.

The MSCI ACWI Index is designed to measure the equity market performance of companies in developed and emerging markets. The MSCI ACWI Index is provided to show how the Fund's performance compares with the returns of an index of securities similar to those in which the Fund invests.

Investment Adviser

Calamos Advisors LLC

PORTFOLIO MANAGER/ FUND TITLE (IF APPLICABLE)	PORTFOLIO MANAGER EXPERIENCE IN THE FUND	PRIMARY TITLE WITH INVESTMENT ADVISER

Calamos Global Equity Fund

Buying and Redeeming Class R6 Shares

Class R6 shares are available to employer-sponsored retirement and benefit plans, held either at the plan level or through omnibus accounts that generally process no more than one net redemption and one net purchase transaction each day. You may purchase Class R6 shares from your benefit plan record-keeper or financial intermediary or directly from the Calamos Family of Funds through the Fund's transfer agent.

Notice to Plan Participants

The purchase and redemption options identified in this prospectus are generally available to plan administrators and/or the plans themselves, but not to the individual participants of such plans. Plan participants should contact the financial intermediary and/or plan administrator through which the plan is held for additional information on their respective plan assets and/or how to transact in their respective plan assets, as the Fund's transfer agent, U.S. Bank Global Fund Services will generally have no information with respect to or control over an individual participant's plan assets. For direct investments, please note that neither the Fund nor its transfer agent offers master plan documentation and/or record-keeping services.

Minimum Initial Investment

Class R6: None

Minimum Additional Investment

Class R6: None

To Place Orders

Please contact your benefit plan record-keeper or financial intermediary, or to place your order directly, contact the Fund's transfer agent, U.S. Bank Global Fund Services, toll-free at the number noted below for further instructions:

U.S. Bank Global Fund Services
P.O. Box 701
Milwaukee, WI 53201
Phone: 800.582.6959

Transaction Policies

The Fund's shares are redeemable. In general, investors may purchase, redeem, or exchange Fund shares on any day the New York Stock Exchange is open by written request (to the address noted above), by wire transfer, by telephone (at the number noted above), or through a financial intermediary, depending on how the shares are held. Orders to buy and redeem shares are processed at the next net asset value (share price or "NAV") to be calculated only on days when the New York Stock Exchange is open for regular trading.

Tax Information

The Fund's distributions will generally be taxable as ordinary income or capital gains, except when your investment is in an IRA, 401(k) or other tax-advantaged investment plan. Any distributions from a retirement account or 401(k) plan may be taxed as ordinary income when withdrawn from such account or plan. Special tax rules apply to investments held through defined contribution plans and other tax-qualified plans.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
