14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ The organizational actions in the Calamos Global Total Return Fund were returns of capital distributions during the fiscal year ended 10/31/2023. Return of capital distributions are nontaxable distributions that reduce a shareholder's basis in the fund's shares. The return of capital distributions can reduce a shareholder's basis in the fund shares to zero and any further return of capital distributions would be capital gain to the shareholder.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ See attachment 1.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Throughout the fiscal year Calamos Global Total Return Fund made monthly distributions. A portion of the distributions were in excess of current and accumulated earnings and profits and therefore are treated as a nontaxable return of capital as set forth in attachment 1.

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ Internal Revenue Code Section 316b(4) describes the methodology for calculating the portion of a distribution that is a return of capital.

18 Can any resulting loss be recognized? ▶ Return of capital distributions are nontaxable distributions that reduce a shareholder's basis in the fund's shares. The return of capital distributions can reduce a shareholder's basis in the funds to zero and any further return of capital distributions would be capital gain to the shareholder. No loss is recognized because of this organizational action.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The reportable tax year for Calamos Global Total Return Fund is the fiscal year ended 10/31/23 and relates to distributions from the fund between 11/01/22 and 10/31/23. See attachment 1.
