WHAT IS THIS PRODUCT?

Type : This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).
 Term : This product has no maturity date. However, the Board of Directors may decide to close the product under certain circumstances.
 Objectives : The Sub-Fund will invest primarily in equities and on an ancillary basis in units or shares of other collective investment schemes. The Sub-Fund promotes certain environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation. The Sub-Fund intends to allocate a minimum of 95% of its Net Asset Value in investments which promote the Environmental and Social Characteristics through application of the above investment strategy. The Sub-Fund also intends to allocate a minimum of 80% its Net Asset Value in investments constituting sustainable investments at any one time. The Sub-Fund will exclude certain industries and business activities that, in the Investment Manager's belief, are too environmentally risky or present social outcomes that are too unattractive to warrant investment consideration.

The Sub-Fund will, under normal circumstances, invest at least 80% of its net assets in equities of issuers domiciled in the U.S. that, in the view of the Investment Manager, have above average growth potential and meet the environmental, social and governance (ESG) criteria. The Sub-Fund may invest up to 20% of its net assets in equities of issuers that are based outside the U.S., which may include emerging markets.

The Sub-Fund may invest up to 10% of its net assets in units or shares of other collective investment schemes, provided that such investments are consistent with the Sub-Fund's investment objective.

The Sub-Fund may hold ancillary liquid assets up to 20% of its net assets. The mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

The Sub-Fund may partially or fully use, without being obliged, financial derivative instruments to hedge its exposure to various risks including risks related to financial markets or to a specific issuer, to changes in interest rates or in currency exchange rates. There is however no assurance or guarantee that such hedging will be effective.

The Sub-Fund may not enter into securities financing transactions (i.e. repurchase transactions, securities lending, buy-sell back transactions, sell-buy back transactions).

The Sub-Fund is considered to be actively managed without reference to a benchmark or index.

The Sub Fund and Share Class launch date is 12 December 2023.

The base currency of the Sub-Fund is USD. The currency of this Share Class is USD.

Your shares will be accumulating. Income from investments in the Sub-Fund will be re-invested and therefore rolled up into the value of your shares.

Past Performance and Previous Performance Scenarios: The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Sub-Fund's net asset value per share/proxy and that past performance is not indicative of future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown.
