3. COST BASIS METHOD

The Cost Basis Method you elect applies to all covered shares acquired from January 1, 2012 forward and to all identically registered existing and future accounts you may establish, unless otherwise noted. The Cost Basis Method you select will determine the order in which shares are redeemed and how your cost basis information is calculated and subsequently reported to you and to the Internal Revenue Service (IRS). Please consult your tax advisor to determine which Cost Basis Method best suits your specific situation. If you do not elect a Cost Basis Method, your account will default to Average Cost.

- Average Cost — averages the purchase price of acquired shares
- First in, First Out — oldest shares are redeemed first
- Last in, First Out — newest shares are redeemed first
- Low Cost — least expensive shares are redeemed first
- High Cost — most expensive shares are redeemed first
- Loss/Gain Utilization — depletes shares with losses prior to shares with gains and short-term shares prior to long-term shares
- Specific Lot Identification — you must specify the share lots to be sold at the time of a redemption (This method requires you elect a Secondary Method below, which will be used for systematic redemptions and in the event the lots you designate for a redemption are unavailable.)
