PERFORMANCE: HOW A HYPOTHETICAL \$10,000 INVESTMENT GREW

The chart below shows how a hypothetical \$10,000 investment in the fund performed vs. the S&P 500 Index since the fund's inception.

Performance is for the fund's Class A shares at net asset value and does not include the fund's maximum front-end sales charge of 5.00%—had it been included, the fund's return would have been lower. Results are before taxes on fund distributions and assume reinvestment of dividends and capital gains.
